## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-34, 48, 51 and 57, drawn to a method of fabrication, classified in class 438, subclass 216.
- II. Claims 35-47, 49, 50, 52-56 and 58-62, drawn to a device, classified in class 257, subclass 324.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, instead of patterning to form the layers, they could be formed by selective deposition.
